Early pricing ends on July, 17th

#### Updated information

[GENERAL INFO – TRAVELLING TO CEUTA](#)

RESER (The European Association for REsearch on SERVICES) is a network of research groups and individuals active in services research and policy formulation, mainly located in European countries.

The Association was established in 1988 at a time when knowledge on service employment and industries was scarce and there was a limited understanding of the role of services in economic and social restructuring
